Mr. Richard Groden
Island Sky Corporation
3288 N 29 Court
Hollywood, FL 33020

Dear Mr. Groden

I am happy to report that my Island Sky air to water producer has been working wonderfully for the two years I have had it, my property is directly on the ocean in Hollywood Fl. and I keep the doors open facing the ocean almost constantly. Except for the normal service maintenance I have had no problems, I am a dilettante of the health arts and have sought to create a healing environment for myself and guests with the best food, water, air and heat [ozonated steam room]. The water from this machine delighted me from the start as the purest and freshest I have ever had and I have a very discriminating palate. My father as a young doctor set a record for his ability to detect chemicals by smell, I have a similar ability so when I say something is as pure as it gets I'm not exaggerating. Feel free to contact me if you wish. Larry Lustbader. P.S. There is a book I recommend called "Your bodies many cries for water" which delineates how important it is to stay hydrated, to me, having a readily available source of the cleanest water makes this something I enjoy doing and I am very grateful for.

Sincerely,

Lawrence Lustbader
